

REMARKS

Applicant respectfully requests entrance of the amendments as detailed above in the above-referenced patent application.

Amendments to the Specification

The amendments to the specification, as detailed above, merely seek to correct an error in the recitation of variable R^{Y1} . Specifically, the terms “hydroxyl,” “alkoxy” and “methoxy” have been replaced with “hydrogen,” “alkyl” and “methyl” respectively. One of ordinary skill in the art will recognize that the oxygen atom in “hydroxyl,” “alkoxy” and “methoxy” is already taken into account in the structures depicted in paragraphs [0176], [0177], [0180], [0181] and [0183]-[0192] (i.e., $-OR^{Y1}$). Additional support for this language can be found, for example in paragraphs [0155] and [0156] on page 36, in the recitation that R^{Y1} is hydrogen or lower alkyl.

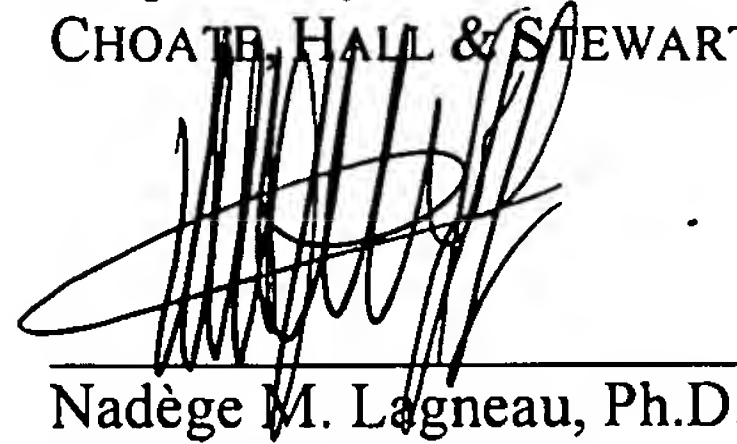

Amendments to the Claims

The amendments to the claims, as detailed above, merely seek to reduce the number of claims by amending claim dependency.

Applicant thanks the Examiner for his/her time and consideration. If a telephone conversation would help clarify any issues, or help expedite prosecution of this case, Applicant invites the Examiner to contact the undersigned at (617) 248-5150.

Please charge any additional fees, or credit any overpayment, to our Deposit Account
No.: 03-1721.

Respectfully submitted,
CHOATE, HALL & STEWART LLP
